Dear Chief Executive Officer,

Thank you for outlining Silverline's initial IT infrastructure requirements.

Before we begin our work, I'd like to ask a few questions. I want to know will we be needing things like a printer, voIP, how soon do you plan on growing. If we are using printers is it one for the whole office for now or do we plan on each department having their own. Will each employee be using WiFi or will they be hardlined into the network. Is the budget firm or will I have some wiggle room if needed

Best regards,
IT Administrator
