SILVERLINE BUSINESS SOLUTIONS

SIMULATED COMPANY CORRESPONDENCE | SLB-001

DATE	October 27, 2026
FROM	Office of the Chief Executive Officer
TO	IT Infrastructure Specialist
SUBJECT	Welcome to Silverline - Initial IT Infrastructure Assessment

Welcome to Silverline Business Solutions. We are a new professional-services company preparing to establish our first office in Las Vegas, Nevada. We currently plan to support eight employees across Administration, Accounting, and Sales.

Our leadership team has set an initial IT infrastructure budget of **$7,500**. We need a reliable, secure, and practical technology environment that supports daily operations and can grow with the business.

Your first assignment is to assess our business technology needs and identify the information required before developing an infrastructure design and equipment procurement proposal. We are not asking you to purchase equipment or begin installation at this stage.

Initial assignment

• Review the company information provided in this email.

• Identify questions you need management to answer before recommending equipment or software.

• Submit a professional written response outlining your questions, assumptions (if any), and proposed next steps.

After your initial discovery questions are addressed, you will meet with the IT Director for technical planning. Your eventual proposal will be reviewed for suitability and budget compliance before any simulated purchasing authorization is granted.

Please return your response as a PDF attachment to this simulated email thread. There is no fixed deadline for this training exercise; prioritize a thoughtful assessment.

Regards,
Chief Executive Officer
Silverline Business Solutions

Training simulation: Silverline is a fictional company. This correspondence is not a real employment offer or purchase authorization.
